

Index to Volume 6: Subject

- Acquired immunodeficiency syndrome (AIDS)
 biologic determinants, 182-183
 condom usage and, 62-66
 education program, 194-195
 environmental determinants, 185-186
 fear of, 190-191
 incidence of, 189-190
 literature review, 190
 medical-technologic determinants, 186-187
 negative attitudes toward, 190
 opportunistic infections in, 183
 organizational determinants, 186-187
 sociologic determinants, 184-185
- Activity orientation, of low-income family, 31
- Acuity-based approach, 5
- Administration
 of physical procedures, 105
 of public health nursing services in Canada, 171-172
- Administrators, 4, 138, 172
- Adolescents, prenatal care for, 82-84
- Advocacy, 105
- Age
 exercise and, 209-210
 health responsibility and, 209
- AIDS-related complex (ARC), 182
- Alternative care grant funding, 24
- American Nurses' Association (ANA), 8, 55
- Appalachian culture
 health-promoting behaviors of, 206, 207-208
 health promotion and, 205
 participants in nutrition programs, 210-211
 perceived social support of, 208, 209
 self-reported health measures, 208, 209
- Assessment, 105
- Assistance, tangible, 213
- Associate degree nursing education (ADN), 8, 9
- Average cost per unit of service, 4
- Azidothymidine (AZT), 183
- Baccalaureate degree nursing education (BSN)
 competence and, 9
 criteria, 8
 preference by home health agencies, 58-61
- Barriers to public health, 164, 166
- Beliefs
 behavioral, 63
 in cultural strata model, 28-29
 poverty and, 30
- Birthweight, prenatal care and, 82-84
- Blood pressure, cardiovascular risk in children and, 69-70
- Bodyweight. *See* Weight
- Bone density, exercise and, 120-121
- Canadian public health nursing
 administrators in, 172
 future of, 172-173
 historical perspective, 169-170
 nursing joint appointees, 135-139
 political involvement and, 171
 preventive service recognition and, 170
 role clarity and, 170
 service administration in, 171-172
 specialists in, 171
- Cardiovascular disease, exercise and, 120-121
- Cardiovascular fitness, cardiovascular risk in children and, 69, 70
- Cardiovascular risk prevention program, in school-age children, 67-73
- Case management, in ADN and BSN courses, 14
- CBCL (Child Behavior Checklist), 219, 220
- Charges, as measure of cost, 3-4
- Child Behavior Checklist (CBCL), 219, 220
- Child conduct problems, clinic-referred, mothers of, 218-219
- Children, cardiovascular risk prevention program for, 67-73
- Cholesterol, cardiovascular risk in children and, 69
- Church
 black, support of hypertensive treatment regimen, 213-216
 as social support unit, 213
- Cognitive guidance, 213
- Collaboration, in ADN and BSN courses, 12-13
- Communication
 patterns, culture and, 29-30
 strategies, for culturally relativistic nurse, 32-33
- Community
 definition of, 147-148
 impact of AIDS, 193
- Community assessment, 147
- Community assessment framework, 148-150
- Community health nursing supervisors, educational needs of, 16-21
- Community long-term care, 142-145
- Compliance
 of blacks to hypertension treatment regimen, 212
 role of black churches, in hypertensive treatment regimen, 213-216
- Condom usage, student attitudes and, 62-66
- Constituency building, 167
- Coping
 of family, PHN services and, 106-107
 social support and, 213
- Cost-accounting procedures, 3-6
- Costs
 determination of, 4-5
 rationale for measurement, 4
 resource use and, 3
- Critical appraisal learning packages, development of, 137-138
- Cultural relativity, poverty and, 28-33
- Cultural strata model, 28-29
- Cultural theory, 31-32
- Customs, in cultural strata model, 28-29
- DEM (Discrepancy Evaluation Model), 89
- Diagnosis-related groups (DRGs), 6, 9, 16, 56
- Dietary practices, culture and, 29
- Direct allocation method, 4
- Direct costs, 6
- Disabled adults
 literature review, 141-142
 residential vs. nursing home care for, 142-145
- Disclosure, 32-33
- Discrepancy Evaluation Model (DEM), 89
- Distance standard, for growth reference, 39
- Dyadic Parent-Child Interaction Coding system-Revised (DPICS-R), 219-220
- Early and Periodic Screening, Diagnosis and Treatment program (EPSDT)
 benefits of, 174-175
 improvement by development of PRECEDE, 175-178, 180-181
 low usage, 175
- Education
 associate degree nursing (ADN), 8, 9

- BSN level, 58-59, 60-61
income and, 208-209
needs of community health nursing supervisors, 16-21
in public health nursing, 167
for women about pregnancy and infant care, 77
